

CORPORATE PROFILE

WELCOME TO PRISMA COLOUR

Prisma Colour is a premier manufacturer and global supplier of colour and additive concentrates to the rubber, plastics and surface coatings industries in more than 40 countries around the world.

Our technical expertise, financial security and production capacity mean we're trusted to make colours and additives for some of the world's largest manufacturers of polymer-based products.

- Custom made colour for any application
- Extensive technical and application knowledge
- 48,000 tonnes manufacturing capacity per annum
- All sites ISO 9001 accredited
- Second location offers security

Other companies in the Prisma Group:

Prisma Rubber Additives Ltd

Develops and supplies speciality chemicals for the global rubber manufacturing industry.

Prisma Dispersion Technology Ltd

Manufactures solvent based pigment and additive dispersions for the surface coatings industry.

PRISMA COLOUR DIVISIONS

Prisma Colour supplies a diverse range of products so whatever you need, Prisma Colour will deliver:

THERMOPLASTIC COLOUR MASTERBATCH AND COMPOUNDS

Colour masterbatch, technical polymer powders and compounds. Polymer specific masterbatch including PE, PP, PS, PC, PA, TPU, TPE, POM, PMMA, ABS, SAN, PET, PBT and EVA.

THERMOPLASTIC ADDITIVES

Thermoplastic additive masterbatch improves the appearance and performance of resins. They are available in a wide range of polymer types and in addition to our standard grades we have the manufacturing capability and technical know-how to produce bespoke additive packages formulated to meet your specific requirements.

ROTATIONAL MOULDING POWDERS

Customised powders to match your specific colour and performance requirements. Our high quality colour compounds are tested to ASTM D1921 for particle size and ASTM D1895 for pourability. General, industrial and high performance grades available.

RUBBER & SILICONE MASTERBATCH

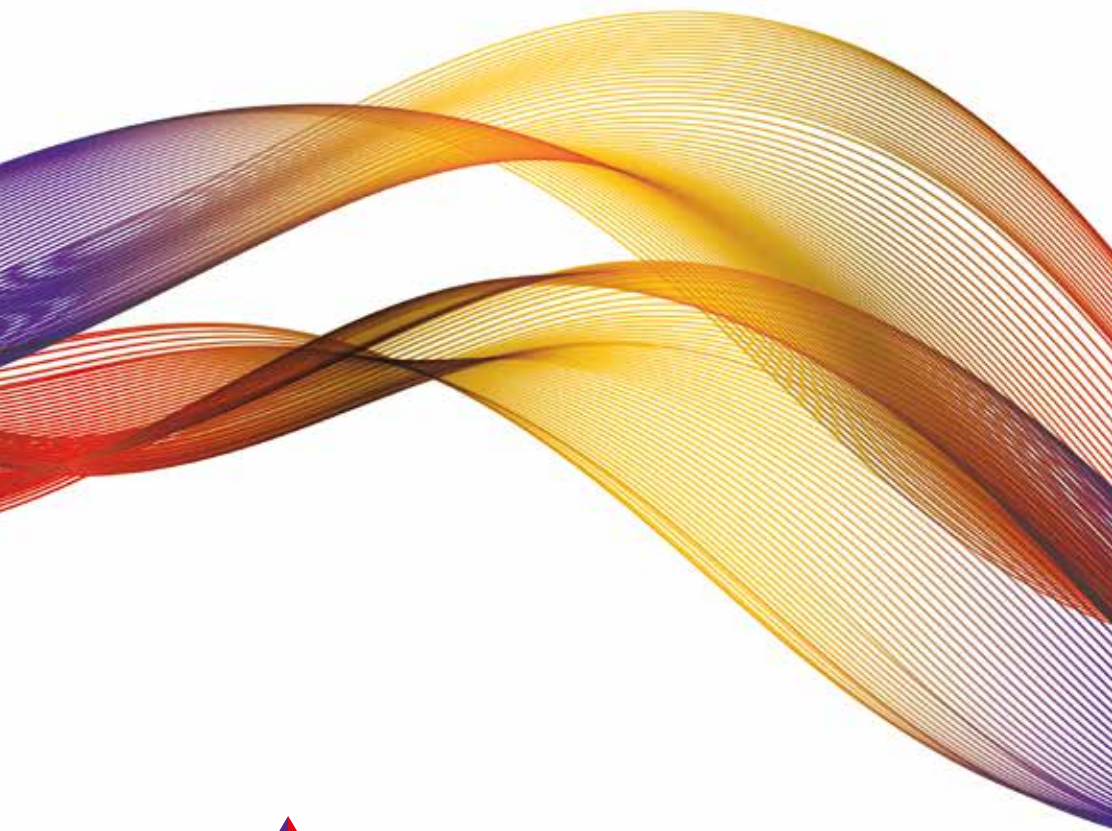

- PRISMAGUM-X** - Highly dispersed slab for dispersion critical applications
- PRISMAGUM-F** - Masterbatch for FKM
- PRISMAGUM-G** - Granulated chip
- PRISMAGUM-S** - Slab form
- PRISMASIL** - Masterbatch for silicone

PIGMENT DISPERSIONS

Full range for all surface coating and ink applications including: solvent based, epoxy, plasticiser, polyol and aqueous dispersions.
